## Ingelvac® CircoFLEX

suspension injection for pigs

### Active Constituent

Each 1 mL dose contains:  
Porcine circovirus type 2  
ORF2 protein

### Indications

For active immunisation of pigs from two weeks of age and older as an aid in the prevention and control of diseases associated with porcine circovirus type 2.

### DIRECTIONS FOR USE

SHAKE WELL BEFORE USE and use immediately. DO NOT mix with other vaccine/immunological products. DO NOT administer during pregnancy and lactation as no safety or efficacy data has been generated in breeding animals.

### Dosage and Administration

Use entire contents after broaching the container.

Administer a single 1 mL dose intramuscularly, irrespective of body weight.

### Caution: avoid carcass damage

1. Sterilise all injection apparatus by boiling before use. Avoid use of strong disinfectants on apparatus.
2. Maintain cleanliness at all times.
3. Keep needles sharp and clean. Replace frequently.
4. Use needles of appropriate gauge and length.
5. As far as possible, avoid injection of animals during wet weather or under dusty conditions.
6. This product should be injected only into muscle tissue.

WITHHOLDING PERIOD:  
MEAT: NIL

### First Aid

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126. Seek medical advice immediately in the case of accidental self injection.

### Adverse Reaction

A mild and transient hyperthermia very commonly occurs on the day of vaccination.

### Disposal

Dispose of empty container by wrapping in paper and putting in garbage. Discarded needles/sharps should immediately be placed in a designated and appropriately labelled 'sharps' container.

### Storage

Store between 2°C - 8°C. Do not freeze. Protect from light.

### Packaging

High-density polyethylene bottles of 10 mL, 50 mL, 100 mL or 250 mL with a chlorobutyl stopper and lacquered aluminium cover.
